- SHIPBUILDING INDUSTRY
- ROAD AND RAILWAY CONSTRUCTION

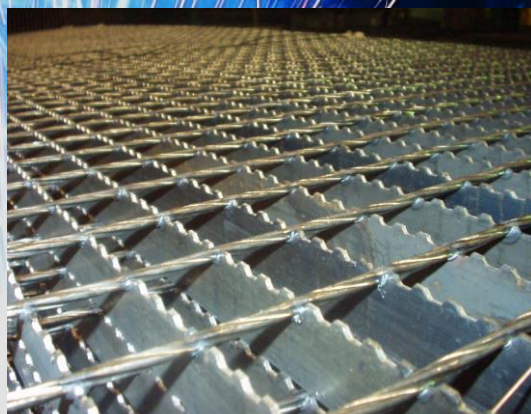

PRESSED GRATINGS

WELDED GRATINGS

LOUVERED GRATINGS

SERRATED GRATINGS

CARDBOARD GRATINGS

Mostostal Siedlce is one of the leading European producers of steel structures.

The Company is also the largest Polish producer of welded and pressed gratings and third largest producer of these products in Europe.

Mostostal Siedlce owns modern technological lines and a robotic station for welding stair treads from platform gratings.

With the use of the automated production line EVG IV Mostostal Siedlce is the only plant in Poland to offer **gratings and mats with the width of up to 1,200 mm in a standard offer and with the length of up to 8,500 mm**. The new line allows for a smooth adjustment of a transverse bar pitch within the gratings, a functionality introduced in response to the growing market demand.

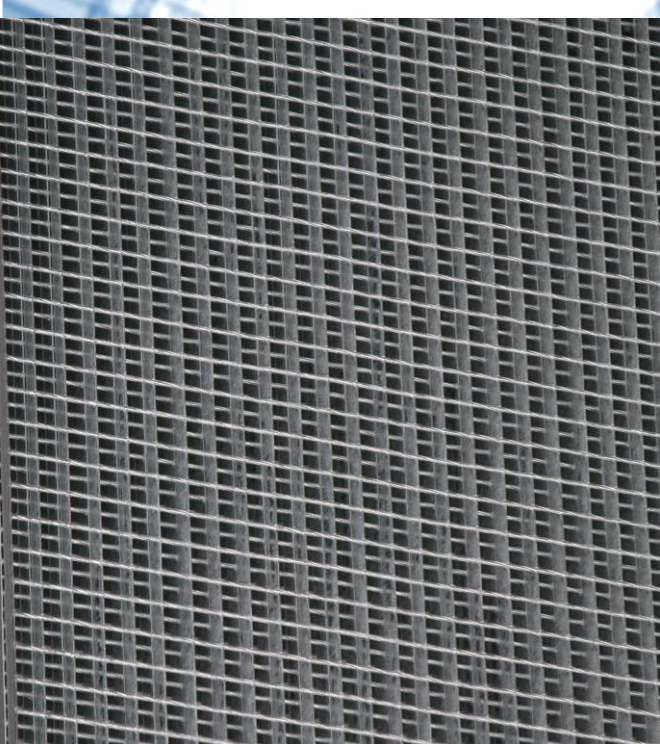

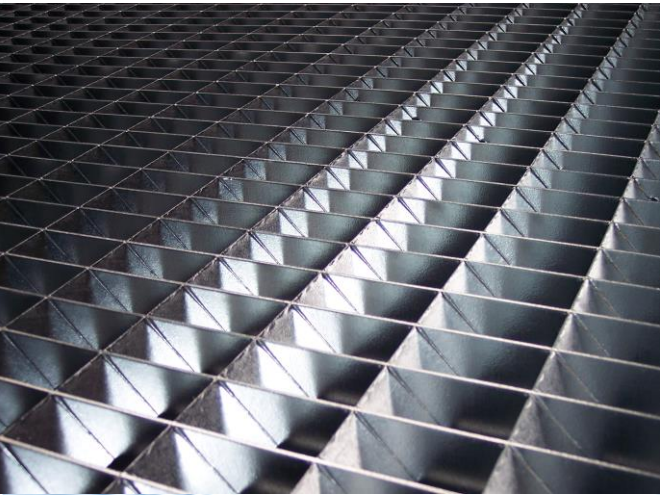

The highly qualified personnel and extensive experience of the Company ensure top quality of customer service and professional advice on the most optimal product selection.

- **MODERN TECHNOLOGY**
- **TOP QUALITY**
- **2000 EMPLOYEES**
- **APPROX. 2,500 TONS OF PLATFORM GRATINGS PER MONTH**
- **IMPLEMENTATION OF NON-STANDARD ORDERS**
- **THE ONLY POLISH PRODUCER OF GRATINGS AND MATS WITH THE WIDTH OF UP TO 1,200 MM IN A STANDARD OFFER AND THE LENGTH OF UP TO 8,500 MM**
- **SMOOTH ADJUSTMENT OF A TRANSVERSE BAR PITCH WITHIN THE GRATINGS IN THE SCOPE OF 19-130 MM**

WIDE RANGE OF APPLICATION

- WELDED AND PRESSED PLATFORM GRATINGS
- LOUVERED COMPACTED GRATINGS
- CARDBOARD AND HALF-CARDBOARD GRATINGS
- SERRATED ANTI-SLIP GRATINGS
- GRATINGS FOR HIGH LOADS
- WELDED AND PRESSED STAIR TREADS
- FENCES
- SPIRAL STAIRS
- BENCHES AND OTHER ELEMENTS OF SMALL ARCHITECTURE
- ASSEMBLY AND MOUNTING ELEMENTS FOR GRATINGS

Mostostal Siedlce specializes in the production of steel structures and platform gratings, as well as in the corrosion protection of steel structures, in particular using the hot-dip galvanization method.

The company has also a considerable market share in the sales of shipping pallets, pallets for storing gas cylinders, pallets for construction materials, various types of containers, racks, frames and other small structures.

The production capacity for steel structures alone is 3,000 tons per month. Over 50% of production is intended for export.

Mostostal Siedlce invests in new production capacities and in innovative solutions that increase efficiency of work and workplace safety. In 2017 Mostostal Siedlce launched a robotic station for welding stair treads from platform gratings.
